INSTRUCTIONS

Cut out all of the dominoes. Stick down the 'START' domino in the top left-hand corner of your sheet of paper. Now look for another domino which gives the correct definition of the KEY WORD on the domino you have just stuck down (in this case: EPIDEMIC). Stick this next domino down...and continue! You may have to stick some dominoes sideways to fit them onto the page.

Example:

<u>START</u>	EPIDEMIC	The outbreak of an infectious disease.	LIFE EXPECTANCY
---------------------	-----------------	--	------------------------
